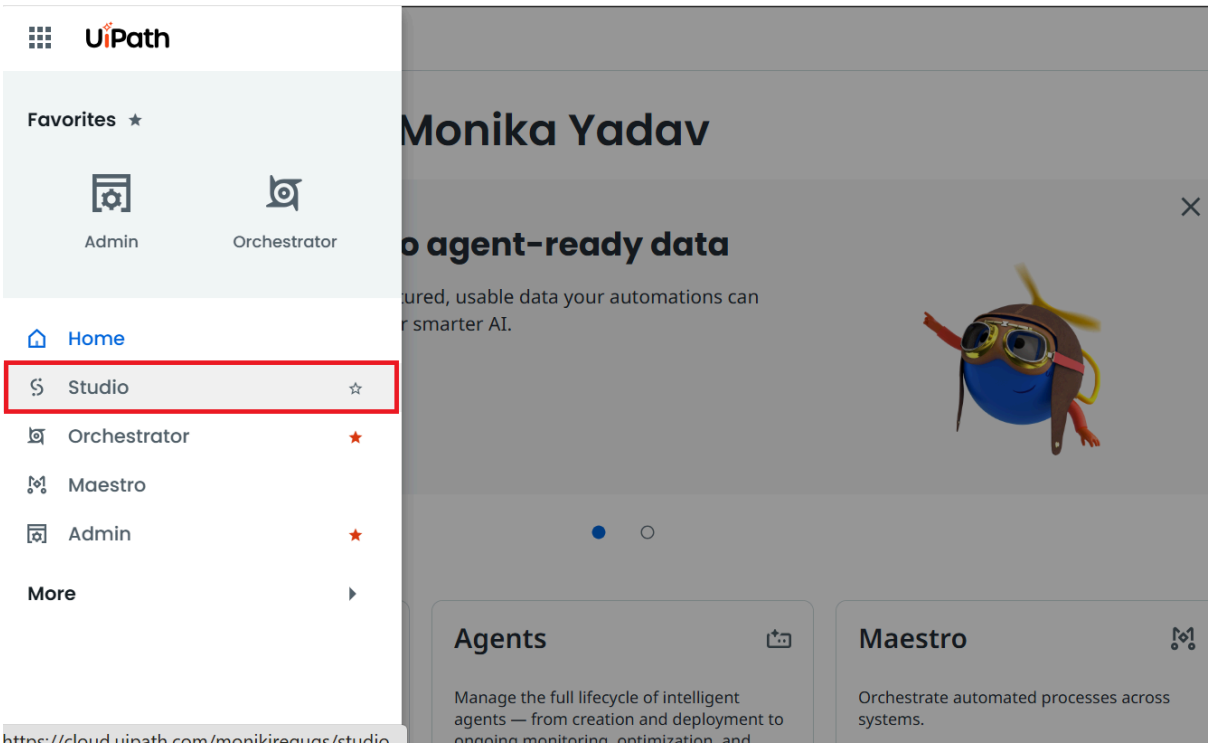
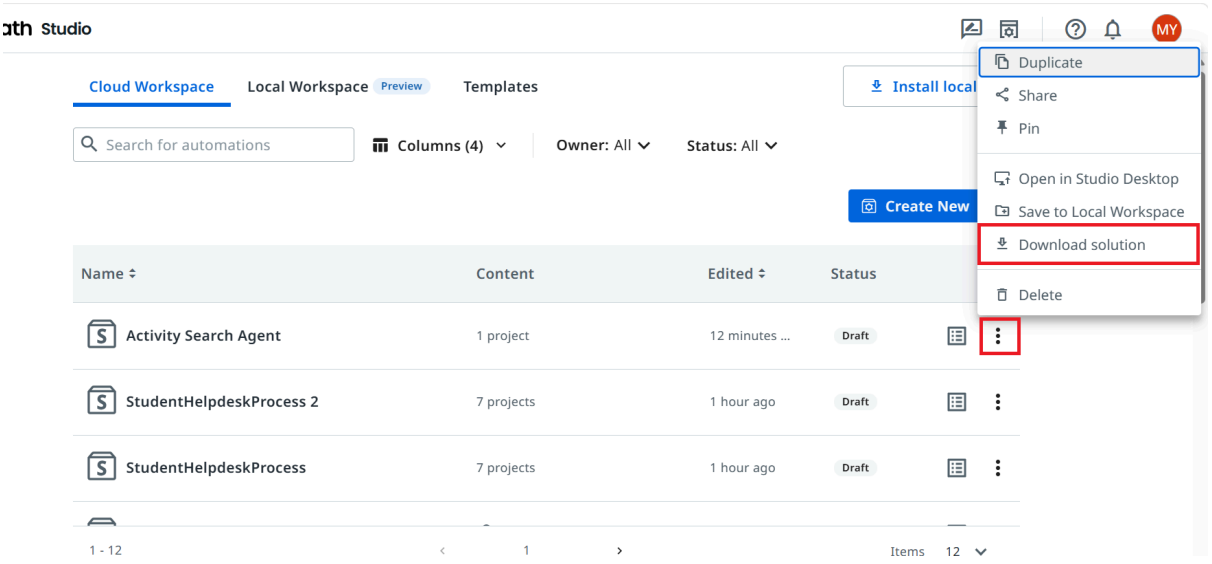
# Agent Setup & Submission Guide

## Step 1: Download the Agent

1. Open UiPath Studio Web.



2. Navigate to your created solution.
3. Click on the **three dots (⋮)** next to your solution.



4. Select **Download Solution**.
5. The agent file will be downloaded as a `.uis` file in your system's **Downloads** folder.

---

## Step 2: Create Prompt Files

You need to create **three separate text files**:

### 1. System Prompt

- Open Notepad (or any text editor).
- Paste the **System Prompt** content.
- Save the file as:
  `system_prompt.txt`

### 2. User Prompt

- Open a new file.
- Paste the **User Prompt** content.
- Save as:
  `user_prompt.txt`

### 3. Evaluator Prompt

- Open another new file.
- Paste the **Evaluator Prompt** content.
- Save as:
  `evaluator_prompt.txt`

---

## Step 3: Organize Files in a Folder

1. Create a new folder with the naming format:
   **`YourName_AgentName`**
2. Place the following inside the folder:
   - Downloaded `.uis` agent file
   - `system_prompt.txt`
   - `user_prompt.txt`
   - `evaluator_prompt.txt`

---

## Step 4: Add Data Sources

- Copy all the **data sources used during agent creation**.
- Paste them into the same folder (`YourName_AgentName`).

---

## Step 5: Convert Folder to ZIP

1. Right-click on the folder.
2. Click on **Send to** → **Compressed (zipped) folder**.
3. A `.zip` file will be created.

---

## Step 6: Upload to Google Form

1. Open the provided Google Form:
   https://forms.gle/Neu7hCuUjzkAJgm66
2. Fill in the required details.
3. Upload the `.zip` file in the file upload section.
4. Submit the form.

---
